

Credit Card Manual Input Transaction

When the 1stmile asks for a swipe or insert and a small window pops up with a green bar going through. The employee simply needs to cancel it and type in the credit card number, fill in the expiration date, name on the card and CVV (optional), and press process at the bottom.

A screenshot of the "Credit Card Sale" application window. The window is divided into several sections:

- Order:** Fields for Order Number, Tax Amount, Total Amount (0.01), and a checkbox for Tax Exempt.
- Address:** Fields for Address, City, State (dropdown), Zip, Phone, and Email.
- Identification:** Fields for SSN, Type (Driver License dropdown), Number, and Exp (MM/DD/YYYY or MM/YYYY).
- Credit Card:** Fields for Name (test), Number (5454545454545454), Expiration (01/2022 dropdown), and CVV (123). Includes a "Swipe..." button and checkboxes for "This is a Card Present transaction" and "Create a Recuring transaction".
- Voice Auth Capture:** A checkbox for "Voice Authorization Capture" and an "Auth Code" field.
- Gift Card Manager:** A dropdown menu for "Balance Inquiry".
- Bottom:** A "Process \$0.01" button (highlighted with a blue border) and a "Cancel" button.
